-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Claims 1-22, 28, 47, 51 and 70-76 stand withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made Paper No. 4.

Claim Rejections - 35 USC § 102 / 35 USC § 103

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 23-27, 29-46, 48-50 and 52-69 are rejected under 35 U.S.C. 102(b) as being anticipated by Singh et al. US Patent Number 5,635,089.

Singh et al. describe, teach and suggest the essential requirements of the elected invention as currently claimed. The reference teaches a surface increasing method for ceramic, metal and

Art Unit: 1756

composite materials (substrates). The method discussed is laser treatment of the surface. In column 1, lines 53-56, it is taught that two orders of magnitude can be gained using multiple laser pulses.

5. Claims 77 -78 are rejected under 35 U.S.C. 103(a) as being unpatentable over Singh et al. The broad teachings of the reference are discussed above. The reference does not suggest the 10,000 fold to 100,000 fold increase as claimed. However, one of skill in possession of this reference would have found it *prima facie* obvious to increase the number of multiple laser pulses to increase the surface area accordingly, dependent on the surface roughness desired.
6. The prior art rejections of record in the previous office actions have been withdrawn in view of the detailed comments and analysis presented in the Brief on Appeal.
7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Christopher G. Young whose telephone number is 571-272-1394. The examiner can normally be reached on Monday-Friday.
If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mark F. Huff can be reached on 571-272-1385. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
